

## Warm Welcome Given Friendship Train

The Village of Irma and district was well represented when the "Friendship Train" from Edmonton pulled in on Monday afternoon. 235 school children were there besides many others.

Master of ceremonies was our High School principal Mr. D. H. Gunn who introduced the president of our local Board of Trade Mr. A. C. Archibald. Also introduced was Mr. Wm. Masson, M.L.A. Mr. Gerry Coates of Radio Station, C.J.C.A. was spokesman for the visitors who had brought musicians and entertainers with them and also gave out surprise treats to all the children.

The Irma W.I. had coffee and cookies ready in Kiefer's Hall to serve to the guests. Mr. H. O. Patriquin, president of the Edmonton Chamber of Commerce expressed thanks to the ladies.

Busses were on hand to take the visitors on a tour of our enterprising village.

### PERSONNEL OF FRIENDSHIP TRAIN, 1953

Mr. D. J. Avison, Imperial Oil Ltd.; Mr. T. L. Anderson, Burns and Co. Ltd.

Mr. M. W. Baker, Woodland Dairy Co. Ltd.; Mr. E. D. Bell, District Passenger Agent, CNR; Mr. J. C. Bennion, Bank of Toronto; Mr. E. L. Benzal, Canadian Linen Co.; Mr. A. A. Burrell, Electric Motor Sales Ltd.

Mr. F. J. Calne, The Royal Bank of Canada; Mr. N. S. Cameron, Primeo (Alberta) Ltd.; Mr. T. H. Campbell, Campbell Furniture Ltd.; Mr. C. W. Carry, C. W. Carry Ltd.; Mr. A. Christenson, Stein Structures Ltd.; Mr. E. A. Christenson, Christenson, Simonton and Co.; Mr. C. H. Clark, W. H. Clark Lumber Co. Ltd.; Mr. W. H. Collins, Bank of Montreal; Mr. R. L. Collins, Canadian Coachways Ltd.; Mr. J. F. Cooper, General Manager N.A.R.; Mr. N. Cowie, Division Freight Agent, CPR, Calgary.

Mr. G. Walker, NAR; Mr. J. A. Weber, Weber Bros. Agencies Ltd.; Mr. G. M. Wilmut, Norman M. Smith Ltd.; Mr. E. H. Wright, NWU Ltd.; Mr. G. K. Wynn, Rule, Wynn and Rule.

Mr. D. K. Yorath, NWU Ltd.; Mr. E. A. Youngblut, International Harvester Co. of Canada Ltd.

### Father McGrane Active In Sea Cadet Work

We thought the following news item, gleaned from the "Mannville Mirror" concerning our old friend Father McGrane would be of interest to Irma folk.

"The Sea Cadet camp period is past and gone for 1953 but already Father McGrane is anticipating a big season in 1954. Since the start of the building of Camp McGrane sea cadets and visitors have seen it progress from an undeveloped tract of land bordering the lake to a fully equipped camp for training Sea Cadets.

A flashy new lighthouse has taken its place at the camp to signal cadets "at sea" on the broad expanse of Lac La Biche. Quarters for the Cadets were built last year and made ready early this spring. Now, with his favorite ratings taking care of Father McGrane has added an Officer's Mess.

A large tractor has also been added to the equipment at the camp.

Mr. G. Haas, Entertainer; Mr. D. S. Haliburton, Canadian Bank of Commerce; Mr. G. E. Hayward, Hayward Lumber Co. Ltd.; Mr. V. B. Hayward, Hayward Lumber Co. Ltd.; Mr. B. C. Hollingshead, McDermid Studios Ltd.; Mr. J. D. Hubbert, Bank of Nova Scotia.

### Easterly Echoes

Mrs. B. M. McNaughton of B.C. is visiting her daughter Mrs. W. Sanders. Stanley McNaughton of Tentagel, B.C., her son, came with her and is assisting with the harvest on the Sanders farm.

Mrs. Rodgers of Glasgow, Scotland, who has been visiting her brother Mr. W. Walker of Calgary, spent two weeks here with her niece Mrs. C. Steele.

Mr. Joe Holt of Kamloops, B.C., has been visiting his parents, Mr. and Mrs. Joshua Holt and other relatives here. His mother-in-law Mrs. O. Enger, returned to Kamloops with him.

We hear they are stringing the telephone wire for line 2. Hope it's correct.

Don't forget the Rally Day service next Sunday at the Irma United Church at 11 a.m. This will be a service for church and Sunday School combined.

### LEGION MEETING OCTOBER 6

The next regular monthly meeting of Irma Branch Canadian Legion will be held in the Legion Hall on Tuesday, October 6 at 8:30 p.m.

As this is the last meeting before the Zone Rally being held in Viking October 28, a large turn out is necessary to appoint delegates to the Rally and make all necessary arrangements regarding this event.

Mr. F. M. Pardee, NWU Ltd.; Mr. B. Parsons, Edmonton Journal; Mr. H. O. Patriquin, Patriquin, Duncan, McClary, McClary and Co.; Mr. G. M. Peacock, Nolan, Chambers, Might, Saecker, Peacock and Jones; Mr. F. Purkiss, The Edmonton Club.

Mr. J. M. Robinson, National Trust Co. Ltd.; Mr. L. Robinson, Jenner Motors Ltd.; Mr. G. L. Roper, Commercial Printers Ltd. Mr. J. Rule, Rule, Wynn and Rule; Mr. W. H. Rushion, The J. H. Ashdown Hardware Co. Ltd.

Mr. W. J. Sanford, Sanford Oil Ltd.; Mr. J. F. Schurman, North American Life Assurance Co.; Mr. G. A. Shaw, Montreal Trust Co.; Mr. R. Sheppard, Radio Station C.J.C.A.; Mr. E. E. Standland, Tiroll Theatre.

### To the Parents And School Children

Noon supervision with our fast growing school has been a problem for some time. It is not possible for the teacher on duty at noon to supervise properly more than the rural pupils who have to spend the noon hour at school.

The town pupils are requested to wait at home until 1 p.m., unless they are playing out of doors. This is not always remembered and perhaps not understood by some of the younger pupils.

We wish to ask the co-operation of all parents in Irma in this matter. Please do not allow children to return to school before 1:00 p.m. except to play out of doors.

Later classes will be in the gym at 12:45 p.m. and any pupil who is assigned to the gym for that day may return at 12:45. All pupils know when they are in the gym class.

The school doors are not open any day until 8:40 a.m. Children who arrive before that time must wait outside until the doors open. Thank you.

—THE IRMA SCHOOL STAFF.

### Glen-Coa Gleanings

Mr. and Mrs. Donald Goodrich of Spokane visited at the Springs home recently.

Erling Nilson is home giving a hand with combining this week.

An LSA group from Camrose College plan to present a program at Sharon next Sunday evening October 4.

What a thrill when the whole countryside lights up this week! This is a long-looked for hope finally realized.

Mr. and Mrs. John Archibald are here from Trenton, Ont., visiting relatives.

Mr. and Mrs. E. Hobbs and daughter of Edmonton were guests at the home of Mr. and Mrs. Bill Inklin this week-end.

Miss Annette Reinhardt and Mr. Bill Horn of Wainwright were Sunday visitors at the J. Weidert's home.

W. I. members are asked to hand as much of their business work as possible in at the Oct. meeting.

Butter from the Viking Co-operative Creamery continues to take prices at Ontario fairs.

In the butter classes of the Western Fair held in London, Ont., September 14-18 in section 1, June butter, the Viking creamery was awarded second prize with a score of 96.7. In section 2 of July butter, the score was 96.1 as third prize. The competition was exceptionally keen in all sections.

### POSTOFFICE MOVES

The postoffice staff were busy over the week-end moving into the new postoffice building just west of the Bank of Montreal.

The new structure is a credit to the business section and patrons find that it is a fine improvement over the old building next to the News Office.

A writup will be published in our next issue.

### Prominent Bank Officials Visit Viking

Mr. John M. F. Turner, assistant general manager, western division, Montreal, and Mr. James M. Jackson, superintendent of Alberta branches of the Bank of Montreal, Calgary, inspected the new bank building here on September 24. They were favorably impressed with conditions in Alberta as a whole.

At noon they were guests at luncheon at the home of Mr. and Mrs. H. Skjelle. Mr. Turner and Mr. Jackson visited the Viking and Kinsella gas pump before leaving for Wainwright.

In each of the past four years July has replaced June as the most popular month for weddings in Canada.

### Legion Rally In Viking October 28

The annual Rally for Zone 2 of the Canadian Legion B.E.S.L. will be held in the Viking Legion Hall on the evening of October 28, and is being sponsored this year by the Viking Branch.

Representatives from the eleven branches in the Zone, i.e., Kingsman, Tofield, Holden, Ryley, Viking, Kinsella, Irma, Wainwright, Edgerton, Chauvin and Paradise Valley will be on hand to report on their various branch activities for the past year and to exchange ideas on various topics of interest to all veterans.

Speakers from the Department of Veterans Affairs and from Provincial Command will be on hand to bring the delegates up to date on Veterans Legislation and Legion Affairs.

A social evening will close the Rally. This is one Legion event every member should make a special effort to attend. Remember the date, October 28.

### Jarrow News

Colin Carter visited around the Batts district last Friday.

The W.A. will meet at the home of Mrs. W. S. Jamieson on Tuesday afternoon, October 6 at 2:30. Visitors welcome.

Mr. and Mrs. Donald Daig of Portage La Prairie, Man., are here on their annual holiday.

Mrs. Arthur Overby was another W.A. member who attended the W.A. Rally at Edgerton.

Mrs. Earl Burr is a patient in the Wainwright hospital.

### Southern Sayings

Mr. J. Jackson was a visitor to Edmonton last week.

Mr. Chester Bartholow of Olds, Alta., has returned to Irma to be with his wife and small daughter.

Miss Elaine Laing, Mrs. A. Murray and Barbara and Mr. and Mrs. R. Reber and Faye moved to Vermilion last week with Mr. J. Quast of Hardisty and visited at Mr. and Mrs. W. McLennan.

Mr. and Mrs. Lawrence Johnston and family, Mr. and Mrs. Ivan Johnston and family of Edmonton were week-end visitors at Mr. and Mrs. Syd Johnston's.

Visitors to the Reber home last Sunday were Mr. and Mrs. Ernest Voyer of Wainwright, Alta., enroute to Montreal, Que. this week. Also Jimmie Reber of Hardisty and Kenneth Reber of Wainwright camp.

Mr. R. Reber is a visitor to Edmonton this week.

### News Items From Kinsella & District

and Buffalo, U.S.A.

The "Friendship Train" arrived at Kinsella with about 90 members of the Chamber of Commerce on board. They received a warm welcome from the school children and a number of residents of town and district. After distributing candies and favors to the children the guests of honor were entertained to lunch in the Memorial Hall by the local Elks Lodge assisted by a number of ladies.

Mr. Dave Treisman is at present a patient in the Edmonton University hospital.

Miss Olga Mulawka of Edmonton spent last week at the home of her parents Mr. and Mrs. M. Mulawka and A.C. 1 Russel Mulawka of the RCAF who is stationed in Edmonton and is on leave at his home here.

There will be no more picture shows until further notice.

### NOTICE

The Irma Home and School will hold its organization meeting in the school lunch room on Monday, October 19. Everybody welcome.

### UNITED CHURCH

Sunday, October 4  
Irma Rally Day Service  
Sunday School and Church combined at 11 a.m. This is a family service and friends and children are invited to worship together.

Albert 2 p.m.  
I was glad when they said unto me, Let us go up to the House of the Lord—  
H. W. Inglis, Minister.

### Kiefer's SHOWS

at IRMA

Friday, October 2 8:40 p.m.

"STARS AND STRIPES FOREVER"

Clifton Webb, Debra Paget, Family Technician

"THE GREATEST SHOW ON EARTH"

Betty Hutton, Cornel Wilde, Technician

Brought back by popular demand.

Two shows, 7 and 9 p.m.

Jrs. pay more at late show.

## Organization Of Rural Fire Departments Is Important To Prevent Farm Fires

Standing alone on the prairie, farms often become easy prey for flames, and farmers are suffering a large share of the deaths, injuries and damage from fires. Once a farm fire starts the chances of bringing it under control are few because of inadequate equipment, poor water supply and lack of trained fire fighters.

Statistics from Saskatchewan Fire Commissioner R. A. W. Switzer, show why he believes a progressive program of fire protection and prevention should be carried out on farms:

Last year there were 220 farm fires reported in Saskatchewan and they took 13 lives (half of the fire deaths in the province). There was a loss of \$510,000 in farm dwellings (more than twice the housing damage in cities and towns). All but one of the lives lost were children.

Lightning is one of the greatest causes of farm fires. Mr. Switzer points out that the only way to control lightning is by good lightning rods. Underwriters' Laboratories has developed a proper lightning protection system which, if properly installed, can eliminate the danger of fire, Mr. Switzer says.

Sparks on the roof also cause many rural fires. Mr. Switzer states that they can be controlled by keeping chimneys clean and also by using fire resistance shingles. Pipes and chimneys should be cleaned at least once a year.

The wide use of gasoline on farms today has brought with it many hazards. Gasoline should be kept in metal containers painted red and properly labelled. Gasoline

barrels should not be stored within 50 feet of any wooden building, asserts Mr. Switzer.

The annual loss from spontaneous ignition of agricultural products on farms runs to millions of dollars. This loss, Mr. Switzer points out, does not include dollars lost from spoilage of produce caused by spontaneous heating where ignition did not occur. Undecayed hay, when stored in piles, or hay which has become incriminated with heat spontaneously. To prevent losses from this source, the hay must be properly cured before storage.

The tendency of electricity users is to overload the circuit and this can be a real danger on the farm, the fire commissioner says. Farm buildings should be wired only by skilled, licenced electrical contractors.

Mr. Switzer believes the organization of rural fire departments is important in farm fire prevention. A committee of enthusiastic farmers should be formed to start the project and purchase suitable equipment, organize a brigade to include a chief, assistant chief and about 15 volunteers. Arrangements can be made to have qualified instructors visit and help in training, Mr. Switzer states.

"There is an urgent need for a diligent attitude of interest and concern on the part of the farm public and a firm resolve on the part of fire prevention authorities to give active support to the cause of conservation of farm property," says Mr. Switzer.

## Tree Planting Car Itinerary For Alberta

The following is the itinerary of the Canadian Forestry Association tour in Alberta for the months of October and November.

| "        | 28—Hainford |
| "        | 29—Hainford |
| "        | 30—Hainford |

Meetings are held in the Car, at each point on the itinerary, at eight o'clock in the evening. When schools are open, arrangements are made with the school authorities to have the pupils visit the car during school hours. Solid films show the results obtained by farming people through planting trees, and give practical instruction in tree planting and home beautification. An illustrated talk covers planting methods, what trees to plant, the laying out of a shelter belt, and planning the home grounds, with information on the care of trees and shrubs. A question period follows each evening meeting.

The object of the tour is to encourage the planting of trees as wind-breakers to prevent soil drifting, to moderate the wind damage to grain crops, to help conserve moisture, assure the production of garden produce, encourage diversification, and to beautify farm home surroundings.

## Men sure go for a MAGIC cake

### COCONUT FUDGE CHIFFON CAKE

Mix and sift into a bowl, 1 c. plus 2 tbs. one-activated cake flour, 1 1/2 cups Magic Baking Powder, 1/2 tsp. salt, 1/4 c. fine granulated sugar; mix in 1/2 c. desiccated coconut. Make a well in the dry ingredients and add in the order given (do not stir mixture), 1/4 c. corn (mild) oil, 2 unseasoned egg yolks, 1/4 c. plus 2 tbs. water, 1 tsp. vanilla, 1/2 tsp. unseasoned bicarbonate, melted and cooled. Stir the liquid to intermingle, then stir in the dry ingredients; liquid will batter is smooth. Measure into a large bowl 1/4 c. egg whites (at room temperature) and sprinkle with 1/4 tsp. cream of tartar; beat until the egg whites are very very stiff—much stiffer than for meringue; angel cakes, etc. Add four mixtures, about a quarter at a time, and fold after each addition until batter and egg whites are thoroughly combined. Turn batter into a greased 9" angel cake pan; bake in a rather slow oven, 325°, about 1 hour. Immediately cake comes from oven, invert pan and suspend cake until cold.

## Manitoba Boosts Its Oil Output

WINNIPEG (CP).—A sharp increase in Manitoba oil production was recorded in July the Manitoba mines branch reported here.

Production from 44 wells totalled 33,950 barrels compared with 41 wells' output of 27,387 barrels in June. The total raised the province's production to July 31 this year to 237,585 barrels compared with 17,324 barrels in the corresponding period last year.

Most of the production came from the Daly field near Virden, 200 miles west of Winnipeg.

During July drilling was completed and production casing set at six wells, drilling was started at eight new wells and licences were issued for four others.

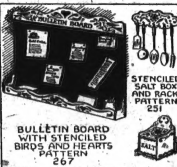

The report showed that wildcat producer Cal-Sian Waskada 9-13 was suspended in mid-June after producing 4,007 barrels of oil. The well is in southwestern Manitoba.

### FLORAL ODDITY

WADEIRA, Sask.—Among botanical freaks discovered here was a sunflower with two blossoms, one growing on the main head, and a gladioli stalk with red and white flowers.

**PRINT FINERY**—This little miss comes back to school wearing a soft print dress made of Orlon. Perfect for sturdy wear, it is washable, wrinkle-resistant and needs little ironing. Tiny white buttons follow the line of the pointed collar and cuffs.

## Home Workshop

BULLETIN BOARD WITH STENCILLED BIRDS AND HEARTS PATTERN 267

Today's project begins with a piece of quarter-inch plywood measuring 22 by 17 inches. This piece becomes the blackboard when finished with the paint formula and directions given on the pattern. The panel at the top and the tray at the bottom are then cut out and decorated. The actual-size pattern for these are traced on the wood and saved on the pencil lines. The designs are also traced to show exactly where to place each color; these are red, blue and green. To make this project in quantity a silk screen printing frame saves time in decorating. Pattern 400 gives directions for making the frame and its use. Enclose 25 cents for each pattern ordered.

This old-fashioned spice and herb chest belongs in today's kitchen. Hanging on the wall or sitting on a shelf it lends a quaint touch, and everything in the way of seasonings is at hand to add the right flavor to good food. More than 20 different drawer labels are included with this pattern. Choose the ones used most often or make a number of chests for a wide variety. These chests are easy to make. Just lay the pattern on the wood, trace, saw and assemble. The finishing directions are complete in detail. Ask for pattern 270 and enclose 35 cents with your order.

Send thirty-five cents (35c) for each pattern. Write plainly Name, Address and Number of Pattern. Send orders to:

Home Workshop Pattern Service, Prairie Publishers Limited, 4433 West Fifth Avenue, Vancouver, B.C.

### AID FOR TEACHERS

QUALICUM BEACH, B.C.—The housing co-operative at the B.C. Teachers Federation has provided homes for more than 40 teachers since its organization two years ago. R. R. Smith, president of the association, said the building loan plan was helping to alleviate the teacher shortage.

Umberto, the son of Victor Emmanuel, was the last king of Italy before the formation of the Italian republic.

## Practical Education For Farm

(This is the second in a series of short articles prepared by E. H. Lange, Director of the Diploma Course in Agriculture at the University of Manitoba and sponsored jointly by the Manitoba Department of Agriculture and the Faculty of Agriculture and Home Economics at the University of Manitoba.)

### LIFE IN RESIDENCE—AN EDUCATION

It may appear odd to mention so early in this series on "Practical Education for the Farm" the advantages gained from living in school residence. Accommodation is definitely limited, and is filling up rapidly at the two schools for agriculture in Manitoba, namely the Agriculture and Homemaking School at Brandon and the Diploma Course in Agriculture at the University of Manitoba, Winnipeg. To those planning to attend either of these courses this fall, we would urge registering now, thereby ensuring accommodation. A ten dollar deposit will hold a room at either of the two schools.

Young people learn a great deal from each other. Having received the background of a good home, young people, when in school residence, are put to a test to apply this training under partial supervision. They learn to live, work

and play together, and it is often amazing to observe the rapid development of personality. Young people gain confidence and develop the ability of leadership. They learn to make friends. They learn to give and take, and usually they learn to appreciate their home all the more. Young people enjoy living in residence.

### GRUESOME RELIC SHOWN AT HOBBY FAIR

SPY HILL, Sask.—Everything from an ancient Indian skull to a century-old English button was shown at a hobby fair here. The skull is believed that of a member of the Shupwan Indians, a peace-loving B.C. tribe that is recorded as having been wiped out by fierce Blackfoot warriors.

## October 4 to 10 Fire Prevention Week

Now is the time to start a good habit—fire prevention. Always be on the watch for fire hazards. Your Fire Department has a big job to do in its Fire Inspection Service and training and equipping firemen for adequate fire control. But you must help. Fire feeds on careless deeds so help eliminate the common causes of fire.

Please—

DO NOT LEAVE MATCHES WITHIN THE REACH OF SMALL CHILDREN.

DO NOT SMOKE IN BED OR DISPOSE OF CIGARETS CARELESSLY.

DO NOT PUT ASHES IN A WOODEN OR PAPER CONTAINER.

DO NOT BRING GASOLINE OR KEROSENE INTO THE HOME.

DO NOT TAKE CHANCES WITH FAULTY ELECTRIC WIRING.

FAULTY CHIMNEYS AND STOVE PIPES.

DO NOT ALLOW RUBBISH TO PILE UP IN BASEMENT OR ATTIC.

Remember—

A careful person seldom has a fire; a clean orderly place seldom burns.

Hon. C. E. Gerhart  
Prov. Secretary

A. E. Bridges.  
Fire Commissioner.

## EDMONTON REPORT

By Donald F. Smith

EDMONTON — More than \$1,000,000 was spent by the provincial government on highways leading to Viking and in the surrounding municipalities in the 12 months up to March 31, 1953.

The final tally on government spending for the fiscal year, ended last March, has just been published and shows that more than \$38,770,000 went into the construction and maintenance of highways, bridges and ferries throughout the province.

Construction on the main highway between Irma and Edmonton, via Viking, topped the million dollar mark alone. New work between Irma and Viking cost \$1,956 and between Viking and Holden ran to \$4,394. Major part of the expenditure went into the construction between Holden and Cooking Lake, a total of \$704,270, while the stretch between Cooking Lake and Edmonton required another \$361,773.

Maintenance costs on the Battle River-Viking stretch in the 12-month period were \$5,802.

Within the Beaver municipal district, No. 73, the government gave \$49,473 in grants for district highways and local roads. In the MD of Minburn, No. 72, the total was \$44,199 and in Flagstaff MD, No. 62, it was \$36,249. The provincial highways department also spent \$19,148 for the maintenance of bridges in the MD of Beaver and another \$44,419 for bridge construction.

The public accounts statement for the fiscal year also shows that the provincial department of health distributed more than \$27,000 into the district in hospital and health grants.

Under the lists of straight grants the Viking municipal hospital received \$4,812, while it got another \$12,500 under the section of special grants and prizes. The Viking Municipal Hospital District Board received a grant of \$8,858 and the MD of Beaver, \$1,596.

Of course, the government took some money out of the district as well.

Although there is no liquor at Viking we can take a look at the sales and profit of the government at Wainwright. Patrons of the store there spent \$308,289 on liquor, which cost the government \$101,639, leaving a gross profit of \$126,649. Subtract operating expenses of \$20,079 and the Wainwright Liquor store made a net profit of \$106,570 in the 12 months.

In the 12 months vendors showed \$51,664.18 worth of liquor and beer across liquor store counters in the province, to give the control board a net profit of \$14,005,330. The total consisted of \$24,035,754 worth of liquor, which grossed the government a profit of \$16,254, and \$27,628,431 worth of beer, for a gross profit of \$4,984,433.

Out of Albertans' entertainment costs the government took \$987,981 in the form of amusement taxes on such things as theatre admissions. This was \$237,981 more than estimated for the period. Gasoline and fuel oil taxes garnered \$15,378,525, which was \$2,778,525 more than the government expected and automobile and truck owners paid \$7,502,039 for vehicle licenses, to give the provincial secretary \$1,100,493 more than he estimated at the beginning of the fiscal year.

Under-estimating like this boosted government revenues \$35,386,046 over the estimated total and with expenditures \$2,751,985 below the estimates, the government surplus of \$77,508,956 was \$38,140,831 more than Premier Manning, as provincial treasurer, estimated in the 1952 legislature.

Total government revenue in the 12-ninth period was \$15,743,686, while expenditures on "income account" totalled \$77,234,730. On capital account the government spent \$84,057,577, which was \$5,313,774 more than the estimated. Major expenditures on capital account included \$29,810,545 for highways, bridges and ferries; \$21,229,167 for the purchase of investments and \$19,506,980 on recoverable advances and payments made under guarantees.

## HOME ECONOMIST NEWSNOTES

Shirley Hoims, Wainwright,

### Freezing Poultry & Game Birds

Bleed well, dry-pick or semi-scald 20-40 seconds in water 125 degrees-130 degrees F. Avoid tearing, cooking and bruising skin. Singe. Draw carefully. Wash in cold water, drain and chill quickly and thoroughly. Leave whole and truss or unjoint and cut fowls and fowl. Silt broilers. Cutting saves space. Wrap twice in moisture-vapour-proof paper or pack in cartons. Wrap giblets in moisture-proof paper and place inside carcass.

Poultry and game birds should be cleaned before freezing as the flavour is better. It is not advisable to stuff birds for freezing since it will take longer for them to thaw out before cooking. Chicken is better thawed before cooking.

Meat and poultry cooked from the frozen state require about half-again as long as the usual cooking time. This means 1 1/2 times regular time.

All poultry and game birds will store better and for a longer period if glazed before wrapping. This is done by freezing birds and then dipping in cold water, thus forming a thin coating of ice over the bird which practically eliminates dehydration.

Time for storage—4 to 6 mos. Fat birds, e.g., geese and ducks should be tested in 4 months for rancidity.

For more Freezing Information write for the booklet "Preserve by Freezing."

### 4-H Clubs

Those who wish to take up a project for this coming fall and winter, now is the time to start thinking about it. You may take projects in Sewing, Foods or Interior Decorating. To have a Club, you need a local leader and 8 members, namely girls from 12-21 years of age. Anyone can be a local leader—you do not need definite standards to be one. An interest in girls work is of utmost importance. So, if you wish to have more information, write to me for details. Please note that all Clubs must be organized by October 15.

### Thimble Talk

Maybe you already know this one. Suppose you have put in a gathering thread as along the waistline of a skirt or along the seam line of a sleeve cap. You wish to gather only parts of the line and leave other parts without gathers. Just slip a pin under the gathering thread at the end of each space to be left without gathers. Then turn the pin so that the thread is twisted under it and push the point of the pin into the fabric. Remember, too, to use the longest stitch on your machine for gathering. Saves so much time!

QUESTION: How does early diagnosis save lives?

ANSWER: By enabling treatment to be begun before the cancer cells have spread and while there is hope of removing all of them from the body.

KINSELLA Phone 2 ALBERTA

Average income of the 2,777,950 Canadians who paid personal income tax last year was \$3,149 and their total income tax payment was \$1,225,275,562. In July of this year Canada's labor force reached the record high of 5,515,000 persons, of whom about 1,150,000 were trades union members.

## Government of The Province of Alberta

Announces the Fifth Annual

### MASTER FARM FAMILY AWARD

for 1953 to the following:

Howard Hymas Family Rosebud	Ernest Belzil Family St. Paul
Frank Jackson Family Keg River	L. B. Lohr Family Erskine
Emil Kvamberg Family Burford	

The Master Farm Family Award is recognized by an award of \$1000.00, an engraved plaque and a name plate for the farm entrance. The purpose of the Master Farm program is to find and honour those who have achieved notable progress in farming, home-making and citizenship, and who, by their example, are encouraging interest in farming as a way of life. The Department of Agriculture is indeed proud and gratified with the high standard of attainment among the farm citizens of Alberta as revealed by the Master Farm Family Program.

## OUR COMPLETE SHORT STORY—

## HYMIE'S HATE

By THOMAS D. PRICE

HYMIE swung down the road almost a song in his heart, the first in five years. One more thing to do—then he could be really happy.

"I'm gonna get that money. And I'm gonna stay free. They'll never take me alive..." Five dollars in the pocket of a new blue serge suit. The prison was kind! Everybody was kind to him that day. Nobody could see the hate in his heart. Everybody was a fool. Even the motorist who pulled up on his hall.

"Going far, buddy?" The voice was friendly, but the eyes were keen behind the cigar smoke. "Gotta make Chicago tonight." When Lucille heard he was out, she might highball. She was afraid of him. She'd heard he was out tomorrow—but not by tonight. "How far you going?" Hymie asked.

## Funny and Otherwise

"Darling," he asked, as he drew his beloved closer to him, "am I the only man you have ever loved?"

"William," she replied, somewhat testily, "before we got any further, I would like to ask you a few questions. You are aware that my father is a millionaire, aren't you?"

"Yes," he answered, "no doubt, that when he dies his vast fortune will be left to me?"

"You know that I own half-a-million dollars worth of property?"

"Yes," he answered, "that my diamonds are insured for two hundred thousand dollars?"

"Yes," he answered, "then, for goodness sake tell me! What difference would it make if I had been kissed by a thousand men before I met you?"

A visitor to the village attended church and afterwards a resident asked him what he thought of the service.

"I liked the service very much," said the visitor, "but one thing puzzled me: why did the congregation hurry out so quickly after the Benediction?"

"Well," the native replied, "the sexton makes them leave their umbrellas in the porch, and those who get out late haven't much of a choice."

"I took up this game," said the hapless golfer, "to develop self-control."

"You should have gone in for caddyding, sir."

Supper had been ready for a long time when Mr. Hennepeck stole into the house and hung up his hat.

"Henry," called his wife from the dining-room, "what do you mean by being two hours late?"

"But darling, I've been run over," he protested from the hall.

"Well, what of it?" she demanded, coldly. "It doesn't take two hours to get run over."

In a crowded store two shoppers met. The woman, a haughty dowager type, stepped to her left to go round a grey-haired, dignified man who was approaching. He, having the same idea, stepped to his right, and they stood face to face.

The man sighed, shook his head in a defeated manner, and announced: "Madam, if you'll just stand still, I'll jump over you."

Teacher: "I asked you to draw a horse and cart and you've only drawn a horse."

Tommy: "Yes—the horse will draw the cart."

The wife of a sportsman prohibited her husband from backing horses, but he continued to gamble secretly.

One evening an old friend, unaware of the prohibition, dropped in and said to the punter: "Well, did you have any luck with Millicent yesterday?" Instantly the wife shot her husband an ugly look and went out of the room.

"You've torn it," groaned the husband. "My wife thinks I don't bet. Now you'll have to square this with her."

In a few moments when the wife returned the friend said broadly: "I say, Mrs. Brown, I'm awfully sorry if I misled you just now. Millicent isn't a horse you know, she's a barmaid."

A successful business man was giving an address on "Commercial Acumen" to a class of students. In speaking of his career, he mentioned a certain company that had been wound up on account of its shady practices.

"Of course," he said, "as soon as I realized there were possibilities of dishonest profit being made, I got out of it."

"How much?" asked a student.

"The tillers," he replied.

"I caught a jabber thinking about it instead of working."

"Anybody who spends time thinking about it, we're sure is a lousy good-for-nothing."

"But, P.M., that doesn't indicate he's lazy!"

"He never used the word 'I'!"

## DON'T BE THE DEAD DUCK

## Hunters Warned To Be Aware Of That "Unloaded" Gun

By MARY GARDINER

In spite of all the talk at this time of the year about hunting safety, chances are that as usual all the dead ducks this season won't be of the feathered variety. Of course you can kill yourself by falling off the front porch but seasonal figures on that score don't usually tally with the rash of fatalities and serious injuries occurring during the annual trek after wild fowl and big game.

Or if you really want to reduce drastically the life expectancy of yourself and those around you, start handling firearms foolishly right at home. Don't wait until you get to the marshes or woods.

Always keep a loaded gun handy in case of robber or terrorist. The trouble is your young children don't have any conception of the danger from a loaded gun. When their curiosity or the lure of playing with a real gun get the better of them, there are often tragic results.

An excellent safety precaution is to keep guns regularly in one place since you're more likely to notice if they're gone. A locked cabinet is suggested or removal of a part of the firing mechanism and locking that up may be more practical if a cabinet or cupboard is not available. Locks can also be obtained to fit into the trigger guard.

Keeping ammunition locked up, separate from guns, is another safety measure to cut down on the temptation for youngsters.

Unusual accidents sometimes occur too when there are loaded guns in the home. One freak squeak of 1932 contained in the U.S. National Safety Council records involved a Baltimore man who was awakened from his sleep by a sharp pain in his right hand.

He looked over to a chair and there was his pet rabbit staring moodily down the sight of a .22 calibre rifle. The injured victim charitably figured the rabbit hit the trigger accidentally.

If you have a screw loose, of course, you'll be careless in handling even your "unloaded" gun. One of the frailties of human nature seems to be to touch the trigger of every gun picked up. But how can you be certain the gun isn't loaded?

Treat every gun with the respect due a loaded gun. If guns are always handled with the action open, there is no danger for they cannot fire. Accidents have occurred when the action closed to put the firearm in a case. As a precaution point the gun downward and away from other people on the chance that one cartridge might remain in firing position.

The wacky hunter is the one who goes after game without accurate knowledge on the working and safe handling of firearms. Before going hunting, a person should be taught how to use firearms on a well-protected range under a competent instructor. He should become familiar with the size and type of ammunition which may be safely used and he should see that all parts of the gun are in good working order.

In addition, safety workers and RED CLOVER SEED SHIPPED

Almost one million pounds of Red Clover of the Alsatwede variety produced from the 1932 crop in the Province of Alberta has been exported in recent months to the United Kingdom. This represents the largest quantity of Red Clover seed shipped to the U.K. since 1948-49 when 2,500,000 pounds went forward.

BIG DEMAND

REGINA. — Growing demand for electricity was shown in cold figures when the Saskatchewan Power Corporation reported net kilowatt-hour production increased nearly 30 per cent in the first six months of 1953 compared with last year.

HAPPY INDIANS

URANIUM CITY, Sask. — Indians from the Fond du Lac reserve who work in the mines and refineries think the Saskatchewan uranium boom is wonderful. They have been flying home and back each weekend in a chartered plane.

Today is yesterday's pupil.

HITCH-HIKING RAT CAUGHT IN ALBERTA

CALGARY, Alta.—A hitch-hiking rat has destroyed Alberta's claim that it is "Canada's only rat-free province."

Charles Kehoe, town constable of Forest Lawn, suburb of Calgary, reported he caught and killed a rat.

It was believed the rat had penetrated the "invaluable" buffer zone along the Alberta-Saskatchewan border by hitch-hiking a ride with a truck passing through the suburb.

Make All Four of these Thrilling oven treats with One Basic Dough!

1-Chelsea Twists

2-Orange Whirls

3-Date Bights

4-Jam Ring

Versatility begins at home—

with Fast Dry Yeast!

One quick dough, thinly rolled, comes out four delectable dessert delights! Raised oh-so tender "x" light Rising Dry Yeast! When you bake at home, get festive results with Fleischmann's. Never fails. Keep a month's supply on hand.

BASIC PINWHEEL DOUGH

Salt 1½ cups granulated sugar 2½ cups sifted flour 1 cup shortening 1 cup water 1 cup raisins 1 cup currants 1 cup nuts 1 cup seeds 1 cup fruit 1 cup chocolate chips 1 cup nuts 1 cup seeds 1 cup fruit 1 cup chocolate chips

Remove from heat and add to mixture. In the meantime, measure 1½ cups of flour into a large bowl. Add 1 cup water and 1 cup shortening. Mix with your hands until the mixture is smooth and elastic. Knead for 10 minutes. Roll out to 16 inches square. Spread with filling and roll up tightly. Bake at 350° for 15 to 20 minutes.

1. CHERRY TWISTS Roll together for 3 minutes, stirring, 1 cup butter or margarine, 1 cup granulated sugar, 1 cup orange juice and ½ cup gran. sugar. Roll out one portion of dough 12 by 18 inches. Sprinkle with cinnamon mixture and ½ cup raisins. Beginning at long side, roll up loosely; cut into 16 slices. Arrange in pan. Grease tops. Cover and let rise until doubled. Bake at 350° for 15 to 20 minutes.

2. ORANGE WHIRLS Roll together for 3 minutes, stirring, 1 cup butter or margarine, 1 cup granulated sugar, 1 cup orange juice and ½ cup gran. sugar. Roll out one portion of dough 12 by 18 inches. Sprinkle with cinnamon mixture and ½ cup raisins. Beginning at long side, roll up loosely; cut into 16 slices. Arrange in pan. Grease tops. Cover and let rise until doubled. Bake at 350° for 15 to 20 minutes.

3. DATE BIGHTS Roll together for 3 minutes, stirring, 1 cup butter or margarine, 1 cup granulated sugar, 1 cup date syrup and ½ cup gran. sugar. Roll out one portion of dough 12 by 18 inches. Sprinkle with cinnamon mixture and ½ cup raisins. Beginning at long side, roll up loosely; cut into 16 slices. Arrange in pan. Grease tops. Cover and let rise until doubled. Bake at 350° for 15 to 20 minutes.

4. JAM RING Roll out one portion of dough 12 by 18 inches. Spread with jam, thick jam, and ½ cup gran. sugar. Roll out one portion of dough 12 by 18 inches. Sprinkle with cinnamon mixture and ½ cup raisins. Beginning at long side, roll up loosely; cut into 16 slices. Arrange in pan. Grease tops. Cover and let rise until doubled. Bake at 350° for 15 to 20 minutes.

Ganong's high grade Creams, Chocolates, etc. 1 lb. cello bags. EXTRA **49c**

**J. C. McFarland Co.**

## Locals

Irma United Church Senior W.A. will meet October 8 at the home of Mrs. V. Hutchinson. Devotionals, Mrs. Tripp. Topic, Mrs. Allen. Hostesses, Mrs. Steele and Mrs. E. Fenton. Visitors as well as members always welcome.

Our first killing frost arrived on Tuesday night, September 29. Until that date one could pick sweet peas, in the flower garden and everyone was glad to see such a long growing season. We had a little rain and a great deal of high wind on Tuesday but otherwise harvest conditions have been good and it is estimated that more than half of this season's grain crop is "in the bin" at time of writing.

The Junior W.A. is sponsoring a sale of Home Cooking on Saturday, October 3 in the Irma Food Market.

Mr. Wm. Masson and Mr. Robt. Pair were among the guests at Wainwright when the Friendship Train from Edmonton was entertained there.

The Irma CGIT is being organized this season and a group of about 20 lassies met with Mrs. H. W. Inglis at the school on September 30. This was to have been a hike but the cold weather brought the decision for a party in the school.

Mrs. S. Magrath is spending the next two weeks in Wainwright with her daughter Mrs. G. M. Holt.

Mr. and Mrs. Monty New finished their holiday here last week-end and went on to Edmonton to spend a short time with Mr. and Mrs. Salisbury (the former Lorretta Savard) and also with our old friends Dr. and Mrs. C. Greenberg before returning to their home at the coast.

Jeanie Torrance has been visiting at Vermilion with her grandparents Mr. and Mrs. Hutchinson.

Mrs. H. Forsythe of Edmonton (the former Edna Arnold) visited with Mr. Jas. Wood on Sunday last.

Eastern Canada's highest mountains are the Torngats in Labrador, just over a mile high; Western Canada's highest mountain is Logan, in the Yukon, nearly four miles high.

**SEEDTIME and HARVEST**  
Dr. F. J. Greeney, Director, Lise Newton Farm Service, Wainwright, Alberta.  
Sponsored by the following companies: Federal, Alberta, Pacific, Pioneer, Consolidated, Poterens, McCabe, Parrish & Rainbecker, Lyle's Co-op, Independent Milling, Canada West and Quaker Oats.

**Prevent Grain Storage Losses**  
A large part of this year's grain crop will have to be farm stored. What about that farm grain of yours? Will it provide good, safe grain storage? Poor storage facilities are usually the cause of spoiled grain.

**Some Practical Suggestions.** According to Canada's grain storage experts, losses occur when insects, mites, or molds attack stored grain causing it to heat and go out of condition. It is much easier to prevent such grain storage losses than to cure them. Some suggestions: (1) Repair that granary now. Check girders and joints for signs of weakness and reinforce them where necessary. (2) Repair roof and siding before bins are filled to eliminate damage from rain or snow. (3) If your granary has a wooden floor make sure it is above ground-moisture level; if it is of concrete, cover it with moisture-proof paper. (4) To prevent insect infestation, particularly in old granaries, clean bin walls and floor thoroughly. Then spray the inside walls and floor with one of the recommended "Pyrene" type sprays. Follow manufacturer's directions carefully. Such sprays are safe and effective. They will kill insects, Rusty Grain Beetles for instance, hiding in cracks between boards or in tunnels in the wood. For added protection spray the outside walls of the granary with a 5% DDT oil spray, but don't use DDT on the inside wall of the granary.

**Store Dry—Keep Dry.** Grain that remains uniformly dry will not spoil. Therefore, bin grain as dry as possible. Don't fill the bin too full—good ventilation is essential. Don't forget that several small granaries are better than a large one for long term storage. If tough, damp, or weed-infested grain must be stored, put it in small bins, examine it frequently, and market it first. Remember too that sanitation is the cornerstone around which good grain storage is built. Do your best to keep out filth, dirt and other foreign materials. Protect your stored grain—it pays!
